## NO REFINERY FOR BRYANT!

**USSC Pres. Harry T. Vaughn Says  
Joint Effort With Savannah Sugar  
Refinery Deferred For Time Being**

### CONSTRUCTION SUGAR MILL ASSURED

There will be no sugar refinery constructed at Bryant for the time being, according to a statement made to The Everglades News Wednesday morning by Harry T. Vaughn, president of the U. S. Sugar Corp., at Clewiston. Construction of the new \$12,000,000 sugar mill will go ahead according to schedule, the sugar company president said.

The refinery project was to have been a joint effort of the Savannah Sugar Refinery and the U. S. Sugar Corp., and the two groups have been unable to agree on the construction of the refinery, therefore, it has been deferred for the time being.

Lawton Calhoun, executive vice president of the Savannah Refinery said it had previously been announced such a refinery would have a capacity of one million bags of granulated sugar a year and would get its raw sugar from a mill which U. S. Sugar would build in Bryant.

The proposed refinery was to have been completed by 1962. It was to serve southern Florida. Mr. Calhoun said, in answer to a query, the competitive situation in Florida has worsened with exiled Cuban sugar company officials setting up operations and more sugar coming into the area from New Orleans refineries.

### Pahokee PTA Has A Business Session

Pahokee Parent-Teacher Association met at the school March 20th with Bill Moss presiding. Girl Scout Troop No. 195 opened the meeting with the Flag ceremony. Dr. Bowers, Pastor of the First Baptist Church, gave the devotion. During the business session the by-laws were revised and the nominating committee was elected with W. D. Howard, as chairman, Vance Denton and Mrs. Kathryn Cunningham.

The attendance award went to Mrs. R. G. Whiteside's fifth grade and to Robert Maxson's home room.

Band Master, Robert O. Lampi and the High School Band presented a program of Concert music.

At the close of the program refreshments were served at the cafeteria by the hospitality committee.

### REGULAR WSCS MEETING

### County Goes Into Whiskey Business Over Rardin Vote

The addition of a cocktail lounge to facilities at International Airport, a matter which has previously split the county commission, proved itself Friday to still be an issue between members of the board.

A motion by Commissioner E. F. Van Kessel for the county to apply for a beverage license for the airport brought support from all members except Commissioner Paul Rardin who was bitterly opposed such a move right from the outset.

Rardin also registered a negative vote on a proposal by Commissioner Lake Lytal to call for bids for operation of the lounge.

The Glades commissioner also registered a negative vote to a motion which called for hiring an architect to make plans for the airport lounge and needed rest room facilities.

Van Kessel said his principal reason for making application for the beverage license is that every other airport in the country comparing in size to International Airport has such an operation; he said the action is a means of raising additional funds to help pay for airport operation.

Rardin declared he felt the move was putting the county into the "whiskey business" and said "I never thought I would see the day the taxpayers would be called on to buy a liquor license."

### Action Sought On Glades Road Jobs

Two Everglades road projects came under county commission discussion Friday with the board joining Commissioner Paul Rardin in an effort to get action.

Rardin said one project, extension of Duda Road, had been in the mill for more than two years and a conflict of opinion over ownership of right of way is holding up the program. He won support for a motion to find out "once and for all if the county can build the proposed road."

Delay in completion of a project for improving Bacom Point Rd. Pahokee prompted the commission to authorize a letter to the governor and chairman of the state road board to find out why the work has not been completed.

### Baptists To Join Methodist Revival

The Canal Point Baptist Church will have the regular Training Union Meeting at 8:30 p. m. Sunday, and the Evening Worship will be held with the Methodists in their Revival Services.

## 2 Miles US27 Hendry County East This Year

### Future Farmers In Regular Meeting

The Pahokee Future Farmers of America chapter held its regular meeting Monday, March 21. There were 28 members and one guest present.

Herbert L. Chapman, of the Everglades Experiment Station, Belle Glade, spoke to the boys on "Feeding Beef Cattle On Pasture".

The Chapter reported eight acres planted in corn for winter feed. The cattle judging team placed 3rd, in State. The Parliamentary Procedure Team has been organized and plans are being made to participate in the Sub-District Meeting May 5th.

### Back To Work Plan For Co. Prisoners

The county commission planned a "back to work" movement of its own Friday but it didn't have a thing to do with the reported unemployment problem being discussed nationally.

Commissioner E. F. Van Kessel told his colleagues on the board that it was time that able bodied prisoners were put to work on county roads.

He said he had been advised more than 200 prisoners are now being held at the county jail—meantime county work crews are short handed.

"Let's get them out on the road," he said.

Van Kessel said he understood that if prisoners pretended to be "a little tired" they didn't have to go to work on the road gangs. He added, "we ought to do something to shake them up a little."

The board agreed with Van Kessel and voted to take any able bodied man for road work who is being held at the county jail. Arrangements for procurement of road workers was left to the sheriff's department and the county engineer's office.

### Barbecue Saturday Night At Elks Club

A big barbecue supper is being planned for the Elks Club tomorrow (Saturday) night and everyone is invited. The cooks at the club will prepare barbecued chicken and pork with all the trimmings. The cost will be \$1.50 and the supper will be served from 6 p. m. until 8:30 p. m. Tell your friends.

J. E. Cochran underwent surgery in St. Mary's hospital last Monday.

The long awaited, much-needed and widely discussed reconstruction of U. S. 27 from the Hendry county line to a spot near Bare Beach for a distance of about 2½ miles will get underway in the coming State Road Department Budget year, according to a statement made by Road Board Member John Monahan Monday. Mr. Monahan told members of the Palm Beach County Commission that the work will be started after July 1, 1961.

The piece of highway—the most disgraceful in Florida—has been talked about and cussed from every angle through the years and lives have been lost while the discussion went on. Now, with a definite pledge from Governor Bryant's new board member, maybe something will be done.

Members of the Palm Beach board told Mr. Monahan Monday that right-of-way has been secured and ready from the Hendry county line east for a distance of nearly five miles. But, the road board member said funds would not be available to build more than the 2½ mile stretch because initial study and plans call for expenditure of 2½ millions dollars for the first contract. That's a million dollars a mile.

Mr. Monahan said that he plans to spend 8 million dollars on this treacherous stretch of US27 highway during the four years of the Bryant administration.

### Local Garden Club In Regular Meeting

The Canal Point Garden Club met Thursday p. m. at the home of Mrs. J. L. McCall with Mrs. Roberta Arrieta, co-hostess. Mrs. Doris Carter presided over the business session and Mrs. Alma Nall was appointed chairman of the Nominating Committee with Mrs. Annie Jones and Mrs. Buena Rodgers.

Mrs. Glenn Powell, program chairman, introduced Mrs. Ruth Meredith of the Pahokee Garden Club, who gave a talk on propagation of plants. To illustrate the various types of propagation she displayed flowers from her yard, using amaryllis, begonia, fern and hibiscus.

The hostesses served cake and coffee to eighteen members and two visitors, Mrs. Walter S. Cross of Canal Point and Mrs. Roy Lawson of Morven, Ga., house guest of Mrs. J. S. Harrington.

Mr. and Mrs. J. H. Strayer drove to Tampa last Sunday to visit her nephew, Gene Bowen and Mrs. Bowen. Little Cathy Jo Bowen accompanied them home for a visit.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission Friday agreed to sell the old county health department headquarters to the City of West Palm Beach for the sum of \$25,000.

They voted to make a contract with the city as a means of cooperating with another public group which has need for the facilities and at the same time, turning down a bid from the paint company which submitted a bid price of \$25,051.

The city offered to give the county a \$1,000 down payment on the building and to pay the balance during the municipalities next budget year. The city said it would use the building in West Palm Beach to house its engineering department.

In other actions the county board at its Friday meeting:

Approved an increase in garbage collection fees requested by the Palm Beach Sanitation Company. They approved a hike to \$1.75 per month.

Instructed the parks department to construct five picnic tables and a

### POSTPONE MEETING

The Teachers and officers meeting of the Sunday School Organization in the Canal Point Baptist Church will postpone its monthly meeting until March 27 because of the Revival being held in the Methodist Church this week.

## We Don't Wanna Cut Up Lake Okeechobee

The county commission indicated this week that it isn't the least bit interested in dividing up Lake Okeechobee into a five-way pie—a proposal that it being advocated by some surrounding counties.

The board voted to advise Rep. Emmett Roberts that it wasn't interested in sitting down to discuss a proposal to divide the lake. The proposal was introduced at the last session of legislature and is expected to make its appearance again in the upcoming session.

Division of the lake would mean a different split in state funds which are returned to the county. Palm Beach County now receives the greatest portion of these state funds which are allocated on land size of the county.

## Banks Support Aid 4-H Club Work

Three banks in Palm Beach County have joined with other Florida banks in national support of 4-H Club work, according to County Agent M. U. Mounts.

The Bank of Pahokee, Pahokee, Commerce National Bank, Lake Worth, and the Atlantic National Bank, West Palm Beach, made their contributions to the National 4-H Club Foundation, Washington, D. C., as part of a nationwide fund raising program.

J. C. Rogers, President of the First National Bank in Leesburg, provided the leadership for this program in Florida.

Banks in Palm Beach County have supported local 4-H programs for several years, Mr. Mounts said. County Bank officials feel the National 4-H Club Foundation provides an excellent opportunity to broaden their support of 4-H.

This local support has been acknowledged by Jesse W. Tapp, Los Angeles, Calif., chairman of the board of the Bank of America, who heads the campaign, and by Grant A. Shrum, the 4-H Foundation's executive director. They have indicated that this County's banks are among more than 2,600 public spirited representatives of private enterprise that are helping to extend and improve the 4-H program through the National 4-H Club Foundation.

County Agent Mounts announced that 4-H recognition plaques will be presented to each of the banks for their "Service to Youth" activities.

## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

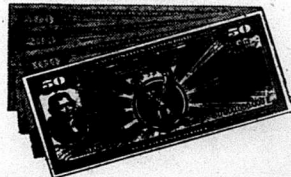

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

*You save more than money*

## Social Security Checks Available For Many More Folks

There are about 1,250,000 people over 65 that are not getting social security checks because they are still working full time, reports R. C. Gehrken, Jr., Manager of the West Palm Beach Social Security Office.

A recent change in the law makes it possible for some of these people to get payments, although they have not retired. Also, a worker's wife, if she is 62, might be able to get checks. This change might be very important to many people living in this area.

Beginning in 1961, workers past retirement age who earn more than \$1200, but less than \$3500, might lose some payments if they don't check with the social security office. Starting this year, earnings over \$1200 won't cause the loss of a full month's benefit in every case; instead, you lose one-half of the amount earned for the first \$300 you earn over \$1200. For example, a worker who earns \$1202 would lose only \$1 from his social security payments; if he earned \$1500, he would lose only \$150. For earnings over \$1500, workers will lose \$1 of their social security payments for each \$1 they earn.

### MYF ENTERTAINED

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$3058 in cash; in 10 years, \$4446.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

Plans were made for the State Council Meeting to be held in Tallahassee during Short Course.

## Battle Looms On Toll Road Building

TALLAHASSEE — AAA motor clubs of Florida have begun a movement to restrict the state from financing toll road facilities at the expense of nearby free roads.

A key objective of the 1961 legislative programs of the Florida Conference of AAA motor clubs recommend legislation that would prohibit the state from making commitments that would delay or prevent construction or improvement of any highway or bridge in connection with financing or operation of turnpikes.

The legislative program was presented to Gov. Farris Bryant and to members of the cabinet. It was mapped at a meeting of the leaders of the Peninsula Motor Club, Tampa; Florida AAA Division, Miami, and the St. Petersburg Motor Club.

Another major aim of the motor clubs is the establishment of county traffic courts in each of Florida's 67 counties, and they will ask the legislature to request Congress to let the "temporary" fourth cent U. S. gasoline tax expire, as promised, on June 30, 1961.

## High Schools Back Boca Raton Univ.

TALLAHASSEE — Student leaders from 176 Florida high schools have requested the Legislature to appropriate funds to build a new university at Boca Raton.

## Coke Plans Worry Some Orange Growers

LAKE LAND — The Coca-Cola Company's first announcement as parent company of Minute Maid Corp. caused some concern in the Florida citrus industry.

Coca-Cola President Lee Talley informed the firm's stockholders that it is considering the possibility of opening frozen orange concentrate plants in the Mediterranean area to serve European markets.

Talley said Greece, Morocco, Italy, Israel and Spain all grow more citrus than they can use, and proposed that concentrate from these areas could be shipped into such markets as Denmark and West Germany.

His statement brought prompt reaction from the citrus industry officials who have been planning to open the European market as a Florida export target.

Homer Hooks, general manager of the Florida Citrus Commission said he hoped Coca-Cola would concentrate on using Florida oranges as "its prime interest."

Hooks noted Coca-Cola's biggest investment in Minute Maid is its 30,000 acres of grove holdings in Florida. He expressed confidence the firm would do nothing to jeopardize this investment.

The Sunday School building of the Canal Point Methodist Church was the site chosen to honor Mrs. Robert Nance with a stork shower last Friday evening. Hostesses for the occasion were: Mrs. Joe Carr, Mrs. Walter Kautz, Mrs. Wm. Underhill, Mrs. Robert A. Shelley and Mrs. Elmer Maxson.

## Gas Sales Double That 10 Years Ago

Gasoline sales in Florida last year registered a 4.2 per cent gain over 1959 and were double the annual sales 10 years ago, the Florida State Chamber of Commerce said yesterday.

The gain last year was the lowest in the 10-year period. The highest, 12 per cent, came in 1955 and rates of gain, dropped since then partly as a result of larger volumes.

"Total sales in the state came to 1,749 million gallons last year. Not included in this figure are military on-base purchases, farm uses and other state tax exempt uses totaling about 10 million gallons monthly."

"Thirty two counties chalked up greater gains last year than the state average of 4.2 per cent. In the metropolitan areas, Orange and Pinellas gained 6 per cent each and Dade, 5 per cent. Broward and Polk were just under the average; Escambia and Palm Beach registered 2 per cent gains and Duval and Hillsborough came out just ahead of 1959.

"Smaller counties, with much less volume, showed greater rates of gain than any of the larger counties. Leading the list were Hardee's 30 per cent and DeSoto's 22 per cent. Gaining from 12 to 14 per cent were, in order, Citrus, Hamilton, Alachua, Charlotte, Collier, Osceola and Sarasota.

"Gains from 9 to 11 per cent came in Manatee, Lee, Baker, Okaloosa, Leon, Clay, Santa Rosa, Martin, Flagler, Holmes, Bradford, Lafayette and Glades.

"Putnam, Hernando, Indian River, Lake, Walton, Gulf and St. Lucie started off at 8 per cent and scaled downward to the state's average. Thirty five counties ranged from just under the average to minus 9 per cent with 13 of them dropping below 1959."

# Picture of a Promise

Sure, she's a grand old flag!  
That's why we salute her.  
That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.
